

**HISTORY OF JORDAN, KAISER & SESSIONS, LLC
CRANFIELD OIL FIELD AREA
TOWNSHIP 7 NORTH – RANGE 1 WEST
ADAMS & FRANKLIN COUNTIES, MISSISSIPPI**

1946: J. P. Sessions' survey for the California Company, the first significant venture by oil interests into the area. (In the late 1800s, Charles W. Babbitt, C.E., surveyed in this township and range. His field notes, worksheets, etc. are in the JKS archives.)

1946 to Present: Surveys for more than 65 oil operators, the specific work performed at the request of the client may include one or more of the following: Lease descriptions, drilling locations, units, pipelines, facility sites, plats of work performed/descriptions/permitting documents.

JKS SURVEYS IN T7N-R1W FOR OIL INTERESTS

Previous surveying experience in the vicinity of any project is helpful, but in this township/range, it is of major importance. The sections are irregular, defined by early land grants, not laid out in the 640-acre-sections that are the norm. Previous experience counts.

- **JKS records show more than 450 survey projects in this township and range.** These surveys include many large tracts. Included in the 450 number are projects for the oil industry.
- **Oil industry survey projects by JKS were sited in sixty-six [66] sections.**
- **JKS oil industry survey projects in this Township and Range total 87.** Included in this figure are lease descriptions and/or maps for projects that required no field work, all needed information being available in the JKS archives.
